Greens Work

The greens have been sliced, fertilized, seeded and mowed. And the grass is growing and looking great. However, partly because of wet weather, and partly because Cleve was on vacation (and he has the trailer to transport the sand), we have not yet been able to get the sand down. Mike is looking at next Thursday morning (9'ish), Nov. 1 (when it's supposed to be dry) to do this work, and needs some able bodied volunteers to help spread a light coating of sand. If you can help, please let Mike know, 519 416-6747. Also needed are a couple of wheelbarrows, shovels and some garden rakes (metal with a flat back) to move and spread the sand.
